動的軌跡パターン × AUC 比較: (a) pooled (混合) vs (b) within-pair (純粋 temporal)
(a) Pooled AUC = ペア間判別 + ペア内 temporal の混合
(b) Within-pair AUC = 純粋な temporal localization
全体 (混合のみ、参照)
B. Dropout (1000/1100/1110)
C. Late starter (0001/0011/0111)
D. Returner (1001/1011/1101)
F. Single-pulse (0010/0100/0110)
E. Sporadic (1010/0101)
